Dear Sir:

Pursuant to 37 CFR §1.97 encouraging the filing of an Information Disclosure Statement, Applicants submit this paper in compliance with their duty of disclosure as set forth in 37 C.F.R. §1.56.

Applicants wish to introduce art having some relevance to the present application, which has been listed on attached Forms PTO/SB/08A and PTO/SB/08B. These forms include thirteen (13) United States patent documents and two (2) non-patent literature items. No representation is made that a specific search has been made by Applicants, that the information is material to the claimed subject matter, or that the information represents the only or the best information.

Applicants do not admit that any of the information provided is necessarily prior to their invention, but rather it is information of which Applicants are aware and believe should be provided to the Office in fulfillment of the duty of disclosure. Any question that may arise regarding the priority of a specific document shall be resolved during prosecution.

The USPTO has waived the requirement under 37 C.F.R. §1.98(a)(2)(i) for submitting a copy of each cited U.S. patent and each U.S. patent application publication for all U.S. patent applications filed after June 30, 2003, and for all international applications that have entered the national stage under 35 U.S.C. §371 after June 30, 2003. 1273 TMOG 55 (August 5, 2003). As this application is being filed after June 30, 2003, Applicant has not submitted copies of the U.S. patents that are cited on form PTO/SB/08A enclosed herewith.

In addition, "A copy of any patent, publication, pending United States application or other information, as specified in paragraph (a) of this section, listed in an information disclosure statement is required to be provided, even if the patent, publication, pending United States application or other information was previously submitted to or cited by the Office in an earlier application, unless: (1) the earlier application is properly identified in the information disclosure statement and is relied on for an earlier effective filing date under 35 U.S.C. §120 and; (2) the information disclosure statement submitted in the earlier application complies with paragraph (a) through (c) of this section." 37 C.F.R. §1.98(d). This application is a divisional of United States Serial No. 10/154,992, which is a continuation of United States Serial No. 09/372,701, filed August 11, 1999, now USPN 6,395,401, and these prior applications are relied on for an earlier effective filing date under 35 U.S.C. §120. The art being cited includes art which has been cited by the United States Patent and Trademark Office or has previously been submitted to the United States Patent and Trademark Office by Applicants during the prosecution of these prior applications. The non-patent literature cited on the PTO/SB/08B form, which was also submitted to the Patent and Trademark office in the parent application, can also be found in the file wrapper of the parent application. Therefore, copies of the cited non-patent literature documents are not enclosed herewith.

The art cited was provided in the English language. The referenced art is being cited for the express purpose of providing the Patent and Trademark Office with the opportunity to make an evaluation and to arrive at an independent assessment of materiality of each document, if any, to the examination of this application. Applicants respectfully request that the information cited be made of record in the subject case.

**IDENTIFICATION OF TIME OF FILING THE INFORMATION
DISCLOSURE STATEMENT**

The Information Disclosure Statement submitted herewith is being filed contemporaneously with the filing of the present continuation application. No certification or fee is due with this filing of the Information Disclosure Statement. 37 C.F.R. §1.97(b)(1).

Respectfully submitted,
